TITLE
As a...
I want...
So that...

Short description of a requirement told from the perspective of the person benefiting from it, usually a user or customer of the system. Sometimes described as a "placeholder for a conversation" – it takes minutes to create, allowing the detailed analysis to be deferred until a short time before development.
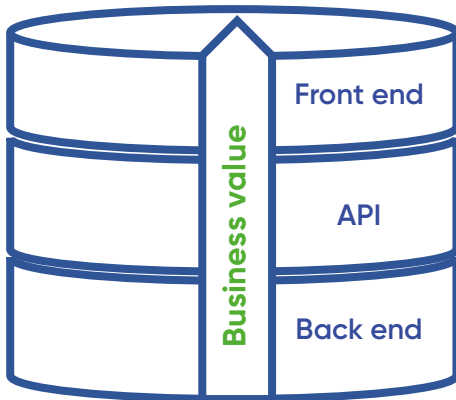

SEARCH BY HOTEL NAME

As a business traveller

I want to search for a hotel by name

So that I can stay in a hotel recommended by a friend.

A simple format

- ✓ Clear title
- ✓ Who is the protagonist?
- ✓ What is it they want to achieve?
- ✓ What benefit is achieved or why are we doing it?
